PROFESSIONAL SUMMARY

Marketer with experience across the full funnel – from brand awareness campaigns at a national tourism office to performance-driven paid search at a tour operator – seeing marketing as a system: from generating demand to converting leads into revenue.

Run campaigns in Yandex Direct and PromoPages, build custom landing pages, implement email automation flows, and set up end-to-end analytics. Work with the full metrics stack – from traffic indicators (CPC, CTR) to campaign performance (ROAS, ACOS, ROMI).

Experienced in major partnership projects with national tourism offices and B2B event management. Use AI tools (ChatGPT, Claude, DeepSeek) for research, copywriting, and optimizing routine tasks.

Nov 2023 – Present

Marketing Manager · Tour Operator

Paid Media & Performance Advertising

Managed Yandex Direct campaigns across multiple types (Product, Unified Performance, and Master Campaigns) in two modes: full hands-on execution and oversight of an external agency with regular audits, stepping in directly when needed. Built custom landing pages on Tilda for select campaigns. Also ran campaigns on Yandex PromoPages (brandformance platform / native discovery): wrote engaging articles and consistently kept CTR, read-through rate, and cost per click above industry benchmarks.

Web Analytics

Set up end-to-end analytics with call tracking for a long sales-cycle business. Designed a lead status framework in the CRM system (Bitrix) with qualification criteria and a workflow for the sales team. Result: Yandex Direct algorithms received clean optimization signals, while marketing gained transparent attribution and data-driven budget allocation. Used Yandex Metrica for in-depth analytics: audience segmentation, behavioral analysis, and audience-product fit assessment via affinity index. Applied the full metrics stack – from traffic indicators (CPM, CPC, CTR) to campaign performance (ROAS, ACOS, ROMI).

Email Marketing & Content

Created emails in UniSender: event invites, B2B thank-you letters, product newsletters. Implemented a double opt-in (DOI) automated flow – ensuring database integrity and high deliverability. Ran a closed Telegram channel for high-end travel agents. Used AI tools to analyze engagement and optimize content planning.

Partnership & Event Marketing

Planned and delivered joint advertising campaigns with national tourism offices: Korea Tourism Organization (KTO), Saudi Tourism Authority (9–12 projects per year). Organized B2B events for travel agents and partners: business breakfasts, in-house master classes, webinars. Coordinated the company's participation in industry workshops: LTM, Pure Luxury, Unique Travel Fair, and Tourbusiness (South, Volga region, and the Urals).
